PEROLES 25X1A -2-25X1A Comment. The artiflery equipment park is probably occupied by several air force supply installations of which an air force equipment depot was definitely identified. This depot supplies the ground attack 25X1C corps of the Twenty-Fourth Air Army. From transportation reports it was inferred that the ammunition and supply depots of the round attack corps are also located in the Doeberitz/Dallgow arou. 25X1C It has not been determined whether one depot or both depots are located in the artillory park. No information has been received that these depots were transferred.
